OFFICER UNDERWOOD'S RESIGNATION.
Officer G. B. Underwood, has accepted the agency of the Kimball Piano and Organ Co., and not a sewing machine agency. He is one of the most popular officers on the force, and there is general regret at his resignation.

FOUR AMERICAN SOLDIERS FALL IN CUBA.

(Scripps-McRae Service.)
WASHINGTON, June 14.—Secretary Long, of the Navy Department, this morning received the following dispatch from Admiral Sampson: "Mole, St. Nicholas, June 13.—Lieut. Blue has just returned, after a detour of seventy miles to observe whether the Spanish fleet is in Santiago harbor. He reports that the Spanish fleet is all there. The Spaniards vigorously attacked the camp at Guantanamo and four marines were killed and their bodies mutilated barbarously. Surgeon Gibbs was killed. **SAMPSON.**"

WASTING HIS AMMUNITION.

General Blanco Fires Over Two Hundred Shots at the Blockading Fleet—The Batteries of Morro Castle Pour Forth a Terrible Fire, But to No Avail.

(Scripps-McRae Service.)
KEY WEST, June 14.—At noon yesterday the batteries of Sandiego and Morro Castle opened a terrific fire at the blockading fleet off Havana, but without any reason, as none of the blockading ships were in easy range. Over two hundred shots were fired by the forts, but not an American vessel was touched. It is believed that Blanco wants to fight while he is able, as his resources are fast dwindling.

The fire from the forts was not returned by any of the blockading vessels, and the Spaniards' ammunition was all wasted.

CUBAN INVASION.

The Bahay Senon May Pass Before the General Invasion Is Begun.

(Scripps-McRae Service.)
Washington, June 14.—The administration has not yet decided on the time or the manner of the attack on Havana and the general invasion of Cuba. The general opinion of those who are well informed on the present views held by the administration is that the rainy season will be allowed to pass before the invasion is ordered. This would put off the attack upon Havana until about October.

HARRINGTON MAY DIE.

(Scripps-McRae Service.)
New York, June 14.—News just received here says Capt. Harrington, of the monitor Puritan, who was stricken with paralysis on June 9, is in a very serious condition and may die.

THE MARIANNE ISLANDS.

(Scripps-McRae Service.)
Madrid, June 14.—In the chamber of deputies yesterday Senor Caplan, the minister of the interior, said that the government had no information that the Americans had seized the Marianne Islands.

WE WILL HAVE A CABLE.

An Office Will Be Established at Guantanamo as Soon as the Cable Is Repaired.

(Scripps-McRae Service.)
Off Guantanamo, via Cape Haytien, June 14.—The cable cutting steamer Adria is waiting here for the cruiser St. Louis, which cut the French cable at this point, to learn where it was cut. The Adria will then pick up the cable and rejoin it, and will establish a telegraph station here the moment the cable is repaired. King, Santiago still has one line to England that is in operation, which is the only outlet the Spanish have from Cuba.

CASTELLANE A FIGHTER.

Severely Wounds His Antagonist a Parisian Editor. Fought Three Rounds.

(Scripps-McRae Service.)
Paris, June 14.—Count Castellane who married Miss Anna Gould, this morning fought a duel with Editor Turot. Three rounds were fought with swords, and Turot was wounded each round, once severely, thus ending the duel.

LOOK FOR A PRIZE.

(Scripps-McRae Service.)
Kinston, June 14.—The British cruiser "Albatross" arrived from Havana today with a large number of refugees. Her captain reports that the auxiliary cruiser St. Louis or St. Paul

THE SECOND MANILA EXPEDITION

Embarks Today at San Francisco—It May Sail Tomorrow—Will Probably Be Accompanied by the Monadnock—Third Expedition Will Soon Be Ready.

(Scripps-McRae Service.)
SAN FRANCISCO, June 14.—The second Manila expedition, consisting of thirty-three hundred men, embarked this morning on the transports China, Colon, Zealandia and Senator and is now ready to sail. It is now expected that the expedition will sail tomorrow.

The third expedition will sail in about ten days and the fourth by July 1st.

The monitor Monadnock and the collier Nero will be out of the dry dock, it is thought, by tonight, and it is probable that they will accompany the second expedition.

SPAIN ANXIOUS

For the Safety of Manila After It Surrenders. Wants Dewey to Occupy It.

(Scripps-McRae Service.)
Vienna, June 14.—Nene Frei Presse asserts that Spain has requested the powers to urge on the United States to occupy Manila in the event the city surrenders and not to allow the city to fall into the hands of the insurgents who are notorious for cruelty.

CANNOT ENLIST NATIVES.

(Scripps-McRae Service.)
San Francisco, June 14.—Orders have been received by the commanders of the expeditionary troops to Manila not to enlist native Philipines in the regular or volunteer United States service.

AFTER LEITER.

The Late Wheat King Is In Hard Lines. Must Pay Up Now.

(Scripps-McRae Service.)
New York, June 14.—An attachment for \$793,925 was today granted by Judge Daly, of the supreme court of the state, against Joseph Leiter in favor of Otto E. Lohrke & Co., grain brokers of New York, for money advanced to Leiter between Feb. 1 and June 13. Copies of the attachment were served on three of the banks of this city.

TAKE NOTICE.

Persuant to a judgment of Paducah police court I will on Thursday June 16, 1898 at the hour of 10 a. m. sell at the market house in Paducah for cash to the highest bidder the following two cows, taken up while running at large and impounded by authority of ordinance No. 28 of city of Paducah:
First cow—Pale red, both tailed, crooked horns, swallow-fork and underbit in right ear and swallow-fork in left ear.
Second cow—Dark and red spotted heifer, two years old, crop off right and swallow-fork in left ear.
Said cows were taken up on Saturday, June 11, 1898.
JAMES COLLINS, Marshal.

MEN OF MODERATE MEANS

Need no longer regard tailor-made clothes with fear and trembling. Dalton now makes clothes in his own shop, here at home—makes the clothes right, makes the bill right. It costs but a trifle more to wear garments that fit than those that a most fit. The acme of style and workmanship is ours. Drop in at 333 Broadway and see about that belated spring suit. You'll be glad you waited—it will cost you so little.

15,000 MORE FIGHTERS WANTED.

Orders Issued to Form Another Cuban Invading Army at Once—12,000 Troops Will Be Sent to Porto Rico—Gen. Coppinger Will Command.

(Scripps-McRae Service.)
CHICKAMAUGA, June 14.—Gen. Brooke this morning received orders from Washington to equip 15,000 more men for service immediately, which are to be rushed as quickly as possible to Tampa, and will go as the second expedition to Cuba. The place of landing is unknown.

(Scripps-McRae Service.)
WASHINGTON, June 14.—It is expected that final orders for the Porto Rican expedition will be issued in a few days. Twelve thousand troops will be all that will be required. Gen. Coppinger will have full command.

OPENS TONIGHT.

The State Sunday School Convention Meets Tonight. Delegates Arrive.

The Program Will Be an Interesting One—Trains Met By Committees.

The delegates to the Sunday school convention began arriving last night, and today all the trains that came into the Union depot were met by the reception committee. The delegates were assigned houses as fast as they arrived and by tonight most of them will have arrived in the city. Several hundred are expected, and the opening session will be held tonight.

ON EACH OTHER'S TRAIL.

Last night two prominent young politicians of Mayfield came up to Paducah. They watched each other at the depot, and both went to the same hotel. One went into the writing room and the other got with a friend on the outside. After conversing with the latter a brief period, he said, "Say, I wish you'd go in there and find out for me where in the hell that fellow's going."

The mutual friend agreed to find out for him, and went in and accosted the other fellow. He thought he would feel around first, but in a few moments the Mayfield man looked up and surprised him by saying, "I wish you would go out there and look up — and find out for me if you can where the devil he is going."

OFFICIALS NOT UNEASY.

(Scripps-McRae Service.)
Washington, June 14.—The state department officers say that they know nothing about the alleged concentration of German ships at Manila and they decline to accept the report as menacing to the peaceful relations of this country and Germany.

"CURLY" GIVEN AWAY.

"Curly," the city hall mascot, upon which the police pay the yearly tax, has been given away, and will be taken up the Tennessee river to his new owner Saturday. He has been given away before, but he usually managed to get back some way.

INVESTIGATION.

The Witnesses Have Been Summoned in the Alleged Bribery Case.

It Will Be Investigated Before the Mayor and Committee This Afternoon.

Summons were this morning issued by Judge Sanders for several witnesses who are to appear before the mayor and investigating committee this afternoon in the alleged bribery case to be investigated. They are about seven in number. The case has created no little comment today, and it seems to be the consensus of opinion that it is best for all concerned that the affair be fully investigated. Councillman Eades is quoted as having said that if he has been bribed and doesn't know it, he wants to find out how it was done.

There is now talk of him suing a contemporary for a recent publication. The committee meets this afternoon at the city hall to hear the evidence in the case, and the result will be reported to the council at its next meeting.

NOT GUILTY.

Judge Gerald, Who Killed Two Men in a Fight, Acquitted.

(Scripps-McRae Service.)
Waco, Tex., June 14.—The trial of Judge G. B. Gerald, indicted for the murder of W. A. Harris, resulted in a verdict of not guilty yesterday.

The charge against Judge Gerald grew out of the famous street battle he had November 14, 1897, with J. W. Harris, editor of a local paper, and his brother, W. A. Harris, in which the Harris brothers were killed. The tragedy grew out of the Briann-Baylor controversy in the Leoncist.

TENNESSEE KILLING.

Jackson, Tenn., June 14.—R. A. Tague, member of the firm of G. S. Gorman & Co., was shot and killed by Emmet Shull yesterday. A recent controversy over an account led to the trouble.

TUESDAY, JUNE 14, 1898.

Two Oregons have recently won gold opinions—the battleship and the state from which she got her name. Both have shown that they are able to take care of themselves, and at the same time fully capable of upholding the national honor.

The Republican last slide out in Oregon following so closely after the announcements of the vast wheat crop of the West are signs of the times so plain that even the Goshelized silver Democracy of Kentucky cannot fail to read their meaning.

A country that can carry on a war and feed the world at the same time, has no equal on earth. And that is just exactly what Uncle Samuel is now doing, and will continue to do until the flag of Spain is driven from the Western Hemisphere.

A Good provision in the new Revenue bill imposes a tax of four cents a barrel on adulterated flour. Wheat flour is not adulterated for the purpose of making bread cheaper, to the consumer, but to fraudulently compel him to pay as much for the adulterated as for the pure article.

Pension Commissioner Evans is determined to make the pension list a roll of honor in fact as well as in name, and he will have the support of the honest people of the nation. Defrauding the government by means of an illegitimate pension is treason and the person who would commit such a fraud would commit any other crime known to the annals of the courts, would be not be found out.

ADVOCATES of the Navy Personnel bill in Congress will find in the heroic conduct of Naval Constructor Hobson, who sank the Merrimac in Santiago harbor, an additional argument in favor of abolishing the existing distinction between line and staff officers of the navy. This gallant officer would not have been eligible for any post of command on a Federal war ship, under current naval regulations; yet no one would deny his right to recognition as one of the bravest and most skilled of the nation's maritime defenders.

The opposition to the construction of the Nicaragua Ship Canal, by our government, the extreme necessity of which the war with Spain has made absolutely plain, should now be narrowed down to the small class of people who desire to see the war prolonged to the longest time possible, that like hyenas, they may feast upon their country's misfortunes. The cost of construction of this great international work is not to be taken into consideration even were it ten times the sum of any estimate that has been given. It has now become a necessity, and must be built with the least possible delay.

The present war with Spain will cause the revision of our school histories in a much needed manner. Thus the student of the rising generation will read of the victory of Dewey and the bravery of Hobson, instead of the northern depredations in the South during the late civil war, or the other side of the question, according to the location of the school. The coming young American will know no North or no South. His Deweys and his Hobsons will be Americans only. The issues of the late war will be forgotten and a reunited people will remember only the deeds of daring and heroism that characterized the struggle.

The first gun of the campaign of 1890 has been sounded by far-away Oregon, where the Republican party boldly took the silver bullet by the horns, and as the result shows, twisted them off. The issue was squarely and defiantly made on the single gold standard, and to the consternation of the 46-cent-dollar silverites, and the delight of the honest-dollar Republicans, the victory for honest money was complete. If the

gold standard can win "hands down" in Oregon, where it can do it of its own accord, except in the rotten borough of Nevada, which was never entitled to Statehood, or the lousy State of Colorado, long since given over to "charlatans of heart and reproaches of mind."

It is possible that the United States Senate will investigate the report that the agents of the hook concern of the Methodist Church, South, paid \$100,000 of the \$288,000 voted by Congress for lobbying. It is all very well for the Senate to make an investigation. It should do so and find who its high priced members are. But the great Methodist church has no need for an investigation. It has the means in its own records to know whether the accusation be true or not, and the church should scorn to touch one single dollar of that money if the church or its agents have been aware of the expenditure of one dollar for lobbying. Two hundred and eighty-eight thousand dollars is a mere bawble beside of one blot upon the escutcheon of a great religious denomination.

Not many months ago the scientists dragged from the hidden mysteries of nature a new gas which they called argon, and they have been investigating it ever since. Lately they have found still another, which they have named crypton. This is found by the evaporation of liquid air. It is transparent and exists in the atmosphere in proportion of 1 to 20,000. The late discovery belongs to Prof. Ramsey. Just exactly what these chemistry sharps intend to do with all the facts they are accumulating cannot be surmised, but they will be handed down to posterity as elements with which to solve problems of the future. In the many thousands of centuries of the infinite ahead of us, if civilization continues, there may yet be found the fountain of eternal life—the transmutation of metals—the philosopher's stone—and dreams and fancies woven into the web of reality; spinning realities out of dreams; the mutual interchange of thought at will.

SOCIETY NOTES.

A LITTLE LESSON.
There, little girl, don't cry!
They have broken your doll, I know,
And your tea-set is broken,
And your play-house too.
Are things of the long ago?
But childish troubles will soon pass by—
There, little girl, don't cry!
There, little girl, don't cry!
They have broken your slate, I know;
And the glad, wild ways
Of your school-girl days—
Are things of the long ago.
But life and love will soon come by—
There, little girl, don't cry!
There, little girl, don't cry!
They have broken your heart, I know;
And the rainbow gleams
Of your youthful dreams
Are things of the long ago;
But heaven holds all for which you sigh—
There, little girl, don't cry!

In honor of Mrs. Woods, of Batou Rouge, Mrs. Long, of Hopkinsville, Miss LaRue, of Bowling Green, and the As You Like It club, Mrs. L. D. Wilcox entertains this evening at her home on South Sixth and Court streets.

The euchre party of Mrs. William McGary, given last evening in compliment to Miss Speers, of Chicago, Miss Mary K. Sowell's guest, was a delightful, indeed.

Mrs. McGary's "at homes" are characterized by taste and originality and on this occasion blind ecstasies was indulged in to a great degree of hilarity. The game over a menu gratifying to the most esthetic taste was served. The invited prize winners were Miss Elizabeth Sinnott and Tom Hall. Those present on the happy occasion were:

Misses Speers, of Chicago; Mary K. Sowell, Martha Leach, Elizabeth Sinnott, Emma McKnight, Mary Boswell, Janet Campbell, Lela Goodwin, Messrs. Oscar Torian, of Evansville; Dick Rudy, Gus Thompson, Albert Foster, Manice Nash, Tom Hall, Hewitt and Rob Noble.

After a pleasant visit to Mrs. Chas. Morris, Miss Hart left today for her home in Henderson, Tenn.

MUNYON'S GREAT FIGHT.

Remarkably Successful in Battling with Disease of All Kinds.

Professor Munyon is winning fresh triumphs each day. From all parts of the civilized world come words of gladness from those who have been cured. Physicians themselves admit that Munyon's new system of curing disease is the most rational of any yet discovered. It is as far in advance of the old method as an electric light is beyond a tallow dip. Munyon guarantees that his Rheumatism Cure will cure nearly all cases of rheumatism in a few hours; that his Typhoid Cure will cure indigestion and all stomach troubles; that his Kidney Cure will cure 90 per cent. of all cases of kidney trouble; that his Catarrh Cure will cure catarrh of the bladder in a few days; that his Headache Cure will cure any kind of headache in a few minutes; that his Cold Cure will quickly break up any form of cold, and so on through the entire list of his remedies. Guide to Health and medical advice absolutely free. Prof. Munyon, 1345 Arch St., Philadelphia.

Mrs. William Hughes entertained Wednesday morning the company of one who last Saturday enjoyed a most delightful trip to Cairo.

A picnic is to be given at La Belle park this week in honor of some of the visitors in the city.

The next meeting of the Young Ladies' Clique club will be with Miss Elizabeth Sinnott, on North Ninth street, Wednesday afternoon at 2 o'clock.

The annual commencement exercises of the Paducah high school were held at Morton's opera house last evening amid quantities of palms and choice plants. Upon the stage were seated the twenty-four graduates—a bevy of youth and beauty, who delighted the audience with an entertaining program of essays and music. Congratulations of many interested relatives and friends follow the young people completing the course.

FASHIONS.
Tucked white poplinette is used for the vest and chemise of cloth costumes.

Three circular flowers are often seen on the same skirt; also many has ruffles from waist to the bottom of the skirt up the back breasted. A novel effect in dress trimming is made with checked silk or cloth. It is arranged in various ways but also in blouse jackets of braided applique blocked white, net or lace, with jeweled applications and satin ribbon.

The more ribbon you can use in your gown decorations the better. The narrow, satin edged gauze, shirred in made up dress decorations through the center, is used without stint in tiny ruche effect.

Light net cloth braided with gold makes a handsome costume. The skirt may have a variation of the circular flounce which is quite narrow, and the vest may be of tucked mirror velvet.

A dressy gown may be of pink dotted foulard trimmed with jet and ruffles of pink chiffon. Another foulard has a bodice to cross to one side over an under bodice of white satin, ornamented.

WHITE ALL THE RANGE.

Aside from the new white toilets and costumes of pique, swiss, muslin, duck, India linen, net's veiling, organdy, gingham, satin, foulard and taffeta silk are those of white barge—a material brought into favor among numerous other revivals.

A decidedly girlish and fetching model in white barge is made over white taffeta. The skirt has numberless tiny ruffles around the bottom of the Spanish blouse, each flit trimmed with three rows of black velvet ribbon. The elaboration of this dress is in the round waist, which shows a mixture of the barge and the black velvet ribbon. One hand of wide velvet in black is placed straight down the front and another down the back. Two other rows are started at the belt on each side of the front and are carried up, expanding slightly on the shoulders, and are then returned to the belt in the back. A cluster of similar ribbon loops in turquoise is set upon each shoulder and there are also folds of the lustrous ribbon about the waist, with two oblong shaped buckles at the back.

Road riding has fallen into disuse of late, and the reason is plain. High gears are the cause, formerly with a 68 or 72 gear a rider could cover 15 to 20 miles and at the end feel no little effect. Now the 80 and 86 gear after a long ride causes stiffness and sore muscles. Riders should be able to change their gear at will and not confine themselves to a high one.

There are 316 bicycles for the manufacture of bicycles in the United States, the average output of each being about 500. These are 2500 small factories, 1626 jobbers in wheels, 2212 manufacturers of sundries and 1200 jobbers of sundries.

White enamel is beautiful, but like ivory becomes yellow and brittle with age.

The racing crank with dropped handle bars seldom appreciates the scenery he passes through.

A member of Y. M. C. A. wheelmen will, in a short time, take a ride to Wisconsin.

To cover his ignorance a poor workman will tell that your broken wheel must be sent to the factory.

Argument

It is not necessary to convince a thinking person that money is thrown away when invested in a typewriter that has not passed its experimental period.

Years of hard, thoughtful effort and continual experimenting are necessary before reaching approximate perfection in a writing machine. It is wisdom, then, for one to contribute to this cost of experiment?

Reputation Established

Years of experience, constantly increasing sales the world over—the natural result of typewriter excellence—is the unquestioned record of

THE SMITH PREMIER TYPEWRITER.

When you buy a Smith Premier you obtain a writing machine that is in advance of all others in points of improvement and durability. Do not pay for the costly experiments of others. The Smith Premier has passed its experimental period years ago. It now stands the leader among writing machines. Descriptive catalogue free.

TO INVESTIGATE.

Council Appointed a Committee to Inquire Into the Alleged Bribery.

Supt. Davis Resigns Temporarily. Pending an Investigation—Harry Wallace Is in Charge.

Late yesterday afternoon Mayor Lang called a meeting of the council for last night. When the session was called to order, the following call was read:

To the members of the common council:

Gentlemen:—You are called to act on a petition concerning a certain deed pertaining to a lot in the cemetery.

To receive a resignation of Frank H. Davis, superintendent of light plant, until a certain investigation is held; to receive a report from the light committee and to receive a request from Capt. Eades and Frank J. Davis and take suitable action thereon. JAMES M. LANG, Mayor.

A lot in Oak Grove was transferred to Mr. J. A. Jones.

Councilman Eades then said that he desired a committee appointed to investigate the charges that he received \$50 or any other amount from Supt. Frank Davis, of the city electric plant.

There was some objection to an investigation, which was opposed on the grounds that the council had already ascertained that there was nothing in the charges, but there was also a sentiment in favor of it, and it was appointed. Mayor Lang, City Attorney Lightfoot, Councilman Fowler, and the light and water committee composed it. The latter are: Clark, Elliott, Eades and Jones.

The resignation of Supt. Davis was then accepted as follows:

To Hon. M. W. Clark, Chairman of Light Committee, City of Paducah:

Dear Sir—I herewith tender my resignation as superintendent of the municipal electric light plant, to take effect as soon as my successor may be appointed. Such resignation to be during the time of investigation of charges pending against me. Respectfully submitted,

FRANKLIN H. DAVIS.

In addition to the letter of temporary resignation of Mr. Davis the light and water committee made the following report:

To the Mayor and Members of the Common Council:

Gentlemen—We, your light and water committee, beg to report that we have in anticipation of Mr. Davis filing his resignation as superintendent of light plant, employed Mr. Harry Wallace as superintendent to take charge on the 11th inst., subject to your approval.

M. W. CLARK, Chairman.

The resignation was accepted and the recommendation concurred in. Mr. Wallace took charge of the city plant today.

SEVENTEEN YEAR LOCUSTS.

According to the farmers, there are a great many seventeen year locusts in the country this year, and a great many of them are afraid to eat blackberries and other fruit. Several local doctors report cases in which there has been nothing serious resulting from the visits of the pests. The lower part of the county is said to be worse infested with them than any other part.

ANOTHER DROWNING.

Young Walter Birchett Meets His Fate in the Ohio River.

He Could Not Resist the Current at the Foot of the Island.

Walter Birchett, a young man well known in the city, was drowned in the Ohio last evening early at the foot of Owen's island, while seeking for minnows.

It appears he and several companions were engaged in the task when he was snatched under and could not be saved. His companions came to the city and informed his mother, who resides on South Eleventh street.

Today no effort was being made to recover the body.

The young man in question was recently sentenced to 30 days on the chain gang for refusing to work and help support his mother. He was nephew of the late Thomas Birchett, keeper of the city hospital.

This afternoon the body had not been recovered, although men had been at work dragging for it.

MRS. CLAUDE LYONS

The Subject of Sensational Reports Which are Denied.

A report was current in the city today that Mrs. Claude Lyons, of Mayfield, the mother of the celebrated "aphrodisiacs," had given birth to a child Friday at her home near Mayfield, and that on account of the disagreeable notoriety incurred the previous time, were trying to keep the matter a secret.

A young man from Mayfield stated that he was generally reported as a fact there Saturday and Sunday, but that he did not go out. He said the alleged babies were delivered by Dr. Pryor, and that at last accounts they were all alive.

A telegram was sent to a reliable gentleman in Mayfield by the Sts. and the following reply was received: "Report regarding Mrs. Lyons' nativity."

It is known that Mrs. Lyons was about to become a mother, as her sister was sent for last week. On the McClure received from his wife, who is Mrs. Lyons' sister, a letter stating that Mrs. Lyons was mother of a boy—just one.

DR. VORIS.

Met the Paducah Boys at Chickamauga—Promised Them Beer.

Dr. C. E. Whitesides is in receipt of a letter from his nephew, Dr. Voris, who recently visited him here after a four years trip to Brazil. Dr. Voris is now in camp at Chickamauga, where the Indiana volunteers, and Saturday visited the Paducah boys, many of whom he knows. He found them drilling hard, and with the same ardent desire for cake and other delicacies that is so prevalent at the camp. He promised several of them to give them some beer if they would call on him the following day, but an order was issued the following morning closing all saloons, and when he wrote, he said the boys were doomed to disappointment. Dr. Voris' many friends here will be pleased to know that he is well.

LABOR AGITATOR.

A Prominent Leader to Be Here in July.

Paducah is to receive a visit of some duration from a prominent labor agitator of New York next month. His name is Conrad, and he is to be here some time in July by the socialist-labor party, and will likely awaken some interest in labor matters.

The exact date of his visit is unknown, and the length of time he will remain is also uncertain.

KEPT BOXES AND ALL.

A day or two ago five hoodlums sailed into the city hall in a wrangle. Each accused the other of calling him all sorts of names as they climbed the steps, and by the time they were in, everybody about the hall had been alarmed by the racket. Marshal Colins called them all into his office, and telling them to lay down their boxes, and this done, forced them all to skip, and they did. Their boxes are still at the hall.

RAILROAD NOTES.

Switchman Stewart continues to improve at the railroad hospital, and is getting along nicely.

Conductor L. Thelford is running between Paducah and St. Louis in place of Conductor Depew, who is off on a vacation.

In relation to the next annual equipment of the C. A. R. at Cincinnati, September 5 to 10, the Illinois Central has issued a "red, white and blue" folder containing a list of all engagements between the federals and confederates from September 5 to 10, in 1861, 1862, 1863 and 1864. It so happened that no great battles were fought on the dates named, but there were thirteen minor engagements, in which the federal forces fought 56 killed and 261 wounded, and the confederate losses were 73 killed, 211 wounded and 2,039 captured.

Yesterday's Louisville Times says: Edward E. Smith, formerly chief clerk in the office of Superintendent Haralan, of the Illinois Central, has been appointed yardmaster for the L.C. at Paducah. Mr. E. E. Briscoe will succeed Mr. Smith. Both gentlemen have been faithful employees, and the promotions are deserved.

The thirty-second annual convention of the Master Car Builders' association will begin in Saratoga Wednesday. Follow this meeting will be a session of the Master Mechanics association, which will not adjourn until June 23.

DEATH OF MR. PEIPER.

The End Came This Afternoon, Condition Became Worse Today.

Mr. J. H. Peiper, agent for the Anheuser-Busch Co., who has been ill for some time from dropsy, died this afternoon. The deceased was a very well known citizen and had a large number of warm friends.

AT THE POINT OF DEATH.

John Martin, one of the family of six down with typhoid fever, is thought to be in a dying condition today, and it is not thought will live until tonight.

A Housed Fish.

In an office on South Penn square, Philadelphia, says the Inquirer, is a small aquarium containing three goldfish. Two of them are ordinary specimens of this particularly attractive species of the funny tribe, but the third is a puzzle to everyone who has seen him so far. About a week ago small protuberances began to appear on either side of his head and now he has two well-developed horns, the exact nature and purpose of which no one has yet been able to determine. At any rate, they give him a very fierce and warlike appearance, and while they do not seem to have caused him to assume a more pugnacious attitude toward his companions in the miniature pond, than formerly, his martial air has gained for him the nickname of "Admiral Farragut."

HURRAH FOR THE CHAMPION HEATER!

How dear to my heart is our snug little bathroom. Our refuge from sickness, discomfort or dust; Its marble, its nickel, its neat-painted flooring. So shiny and free from all foulness and rust, But the best thing there is within that enclosure. The object that pleases us most of them all. That soonest can warm us when chilled by exposure. Is the good Champion heater that stands by the wall; The Champion gas heater, the nickel-plate heater. The nice, handy heater, so shiny and tall.

When the fires are all out and the children awake me, With coughs or with croup, at once, with all speed, To light up the heater I straightaway betake me, And find it is always a good friend indeed.

For laundry, for sickroom—most all pain relieving—For milk that is molten, beef extract or tea, For hot water bags—why, 'tis past all believing. How handy a good Champion heater can be—The Champion gas heater, the nickel-plate heater—No living without one henceforward for me.
